Parsing the works of the experimental music pioneer Robert Wannamaker's monumental two volume study explores the influential music and ideas of American composer theorist writer performer and educator James Tenney delving into the whole of Tenney's far ranging oeuvre. Wannamaker provides in depth aurally grounded analyses of works linked to the artist's revolutionary theories of musical form timbre and harmonic perception. Volume I contexts and paradigms chronologically surveys Tenney's creative development and output. Wannamaker begins each section with biographical aesthetic and technical context that illuminates a distinct period in Tenney's career. From there he analyzes a small number of pieces that illuminate the concerns, characteristics and techniques that emerged in Tenney's music during that time. Wannamaker supplements the text with musical examples, graphs and diagrams while also drawing on unpublished material and newly available primary sources to flesh out each work and the ideas that shaped it. A landmark in experimental music scholarship, the music of James Tenney is a first of its kind consideration of the experimental music titan and his work.

The scholarship devoted to American literary realism has long wrestled with problems of definition. Is realism a genre with a particular form, content and technique? Is it a style with a distinctive artistic arrangement of words, characters and description? Or is it a period usually placed as occurring after the Civil War and concluding somewhere around the onset of World War I? This volume aims to widen the scope of study beyond mere definition. However, by expanding the boundaries of the subject through essays that reconsider and enlarge upon such questions, the Oxford Handbook of American Literary Realism aims to take stock of the scholarly work in the area and map out paths for future directions of study. The handbook offers 35 vibrant and original essays of new interpretations of the artistic and political challenges of representing life. It is the first book to treat the subject topically and thematically in wide scope with essays that draw upon recent scholarship in literary and cultural studies to offer an authoritative and in depth reassessment of major and minor figures and the contexts that shaped their work. Contributors here tease out the workings of a particular concept through a variety of authors and their cultural contexts. A set of essays explores realism's genesis and its connection to previous and subsequent movements. Others examine the inclusiveness of representation, the circulation of texts and the aesthetic representation of science, time, space and the subjects of medicine, the new woman, and the middle class still others trace the connection to other arts, poetry, drama, illustration, painting and film and to pedagogic issues in the teaching of realism. In this volume forges exciting new paths in the study of realism.

in god's eye view tommy tenney explores how worship lifts us up to see the trouble we face from god's perspective instead of being trapped in an earthly time bound viewpoint the higher we go the smaller our problems seem tenney also teaches the principle of magnification the closer you get to something the bigger it appears in other words worship not only shrinks our problems it also magnifies god in our lives and to others worship doesn't really change our problems it just minimizes their influence over us as we focus on god he doesn't promise to remove all of our circumstances but god does assure us that in his presence and from his perspective we can see things as they really are and not how they appear to be in the book of revelation john was instructed to behold the lion but from an earthly perspective john saw only the lamb the heavenly perspective reveals that the lamb is the lion the babe of bethlehem is the ancient of days and the dragon is really a weakened lizard god's eye view is higher than man's eye view higher than a bird's eye view.

What explains the enduring popularity of white-authored protest fiction about racism in America? How have such books spoken to the racial crises of their time and why do they remain important in our own era? White Writers, Race Matters explores these questions and the controversies they raise by tracking this tradition in American literary history dating back to Uncle Tom's Cabin. The genre includes widely read and taught works such as Huckleberry Finn and To Kill a Mockingbird along with period best sellers now sometimes forgotten. This history also takes us to Hollywood which regularly adapted them into blockbusters that spread their cultural influence further as well as incited debates over their politics. These novels strive to move readers emotionally toward ethical transformation and practical action.

First published in 1996, this volume includes a collection of essays that were collected after the inspiration of finding positive interactions between African American and Irish writers during the Harlem Renaissance—a time when these two groups were hardly on good terms. The essays look at theories and realities of literary influence that especially affect African American writers.

A god chaser is a person whose passion for God's presence presses him to chase the impossible in hopes that the uncatchable might catch him. A child chases a loving parent until suddenly the strong arms of the father enfold the chaser, the pursuer becomes the captive, the captor. Paul put it this way: I chase after that which apprehended me. Phil 3:12. Job was a god chaser. He said, Oh that I knew where I might find Him! David was one. He said, My soul followeth.
hard after thee paul was one too that i may know him the passionate
paths of god chasers can be traced across the pages of history from
moses the stutterer david the singer and paul the itinerant preacher
to contemporaries like a w tozer leonard ravenhill and countless
others who share one common bond an insatiable hunger to know their
lord these are people whose relentless passionate pursuit of christ
often made them appear foolish in the eyes of others yet having tasted
his goodness and glimpsed the invisible they could be satisfied with
nothing less add your name to the list become a god chaser who know
you might be one whom he catches

for las vegas widow naomi memories of a pennsylvania dutch childhood
are an ache from the distant past a painful memory of abandoned roots
and lost connections she has long since reconciled herself to the
shattered dreams that had enticed her from her heritage and now simply
lives in a tiny apartment thick with loneliness and regret her sole
consolation is her daughter in law ruth but when hard living claims
both of her boys the two women turn naomi s creaky impala eastward in
a desperate last chance bid for hope and meaning thus begins a cross
country odyssey that brings her home to her old farm in lancaster
county and to the values and rhythms of a life once spurned although
the east is foreign territory ruth also finds a home here among the
slow and authentic cadences of pennsylvania farm country and she finds

this collection brings together work from memory studies and
translation studies to explore the role of interlingual and
intercultural translation for unpacking transcultural memory dynamics
focusing on memories of violent pasts across different literary genres
the book explores the potential of a research agenda that links
narrower definitions of translation with broader notions of transfer
transmission and relocation across temporal and cultural borders
investigating the nuanced theoretical and conceptual dimensions at the
intersection of memory and translation the volume explores memories of
violent pasts legacies of war genocide dictatorship and exile across
different genres and media including testimony autobiography novels
and graphic novels the collection engages in central questions at the
interface of memory studies and translation studies including whether
traumatic historical experiences that resist representation can be
translated what happens when texts that negotiate such memories are
translated into other languages and cultures and what role translation
strategies translators and agents of translations play in memory
across borders the volume will be of particular interest to students

The people who directed, produced, and starred in the scary and fantastic movies of the genre’s heyday over thirty years ago created memorable experiences as well as memorable movies. This McFarland classic brings together over fifty interviews with the directors, producers, actors, and make-up artists of science fiction and horror films of the 1940s, 1950s, and 1960s from B movies to classics. Samuel Z. Arkoff to Acquanetta; these veteran vampire baiters, swamp monsters, and flying saucer attackers share their memories. This classic volume represents the union of two previous volumes interviews with B science fiction and horror movie makers more fun than the lovably cheap movies that inspired it.
