year along with the lunar new year so this book makes an excellent companion to Grace Lin's Bringing in the New Year which features the same family

**Mastering the Basic Math Facts in Multiplication and Division**

2014-03-14

When math fact instruction is thoughtful and strategic it results in more than a student's ability to quickly recall a fact. It cultivates reflective students who have a greater understanding of numbers and a flexibility of thinking that allows them to understand connections between mathematical ideas. Susan O'Connell and John Sangiovanni in today's math classroom we want children to do more than just memorize math facts. We want them to understand the math facts they are being asked to memorize. Our goal is automaticity and understanding. Without both our children will never build the foundational skills needed to do more complex math. Both the Common Core State Standards and the NCTM Principles and Standards emphasize the importance of understanding the concepts of multiplication and division. Susan O'Connell and John Sangiovanni provide insights into the teaching of basic math facts including a multitude of instructional strategies, teacher tips, and classroom activities to help students master their facts while strengthening their understanding of numbers, patterns, and properties designed to be easily...
integrated into your existing math program mastering the basic math facts emphasizes the big ideas that provide a focus for math facts instruction broadens your repertoire of instructional strategies provides dozens of easy to implement activities to support varied levels of learners stimulates your reflection related to teaching math facts through investigations discussions visual models children’s literature and hands on explorations students develop an understanding of the concepts of multiplication and division and through engaging interactive practice achieve fluency with basic facts whether you’re introducing your students to basic math facts reviewing facts or providing intervention for struggling students this book will provide you with insights and activities to simplify this complex but critical component of math teaching extensive online resources include customizable activities templates recording sheets and teacher tools such as multiplication tables game templates and assessment options to simplify your planning and preparation over 450 pages of reproducible forms are included in english and spanish translation a study guide for professional learning communities and book clubs is also included discover more resources for developing mathematical thinking at heinemann com math

Math Lessons for a Living
have you ever noticed that we tend to compartmentalize when teaching our children in real life there aren’t artificial barriers between subjects for example when you are cooking or baking you have to use the skills of reading logical thinking and measuring just to name a few in driving a car you see and read road signs read maps and count miles it has become quite clear that there is an abundance of math curriculums available that are nothing but monotonous drill sheets dressed up in pretty colors pretty colors do not make a living book content story and the ability to show math in real life make a living math book math level 1 teach math lessons through the creative means of a life story provides a link for the downloadable answer key has a scope and sequence that contains learning numbers 0 to 100 circles and patterns counting and addition days of the week and telling time this book was written to be used by you and your young student together it is the story of a twin brother and sister charlie and charlotte who are visiting their grandparents farm they soon learn that the farm is full of learning opportunities as you read their story your students will be drawn into the adventure along with the twins they will learn about numbers shapes place value adding and subtracting they will also learn about gardening baby animals on the farm nature and the love of family they will hear
exciting stories from grandpa and grandma and they will be invited to join the twins on their living math adventures we hope you have a grand time on this adventure

**What Every 1st Grade Teacher Needs to Know**

2011-04

You’re teaching first grade this year—what do you need to know? Margaret Berry Wilson gives you practical information about daily routines, furniture, and much more. She starts with a concise review of first graders’ common developmental characteristics and then shows how to adjust your classroom and your teaching to fit these common characteristics. The result: students can learn and you can teach with minimum frustration and maximum ease and joy in a warm, conversational atmosphere.
style punctuated with anecdotes and examples from her own classrooms margaret shares practical know how on topics like this arranging a circle desks and tables choosing and storing supplies scheduling a child centered day and teaching daily routines planning special projects and field trips that maximize learning and build community understanding the special concerns of first graders parents and finding the best ways to communicate

2023-04-19
The Best Seat in First Grade

2020-06-23

This heartfelt story is just right for all children getting ready for first grade and other big early steps on the first day of first grade. Sam is excited to share his news with the class while some kids report losing a tooth or going to soccer camp. Sam tells the class that his elephant had a baby. No way, cry his classmates. No one has an elephant. Will Sam be able to convince his classmates that he’s telling the truth? First graders and first graders to be will root for Sam who is so excited to share his news that he can’t sit still and nearly falls off his chair. First graders will relate and their parents, caregivers, and teachers will smile in fond recognition. The team that wrote and illustrated the I Can Read Favorites, The Best Chef in Second Grade and The Best Seat in Second Grade, knows how to create a gentle, believable, sweet story that helps kids explore their emotions and reflect on their own experiences. The Best Seat in First Grade is a level one I can read book which means it’s perfect for children learning to sound out words and sentences. Whether shared at home or in a classroom, the short sentences, familiar words, and simple concepts of level one books support success for children eager to start reading on their own.
