additional information contact 585 624 9500 or johnmcnall bowmac com following the events of september 11 2001 citizen corps was launched as a
grassroots strategy to strengthen community safety and preparedness through increased civic participation since then the importance of
preparedness education training and involving the whole community has become increasingly recognized as critical to successful community
preparedness and resilience citizen corps is administered by the federal emergency management agency within the department of homeland
security but is implemented locally communities across the country have created citizen corps councils as effective partnerships between
government and community leaders to focus on the following objectives engaging the whole community in collaborative community planning
and capacity building integration of community resources outreach and localized preparedness education and training emergency communications
to all population segments drills and exercises and volunteer programs cert is a critical program in the effort to engage everyone in america in
making their communities safer more prepared and more resilient when incidents occur community based preparedness planning allows us all to
prepare for and respond to anticipated disruptions and potential hazards following a disaster as individuals we can prepare our homes and families
to cope during that critical period through pre event planning neighborhoods and worksites can also work together to help reduce injuries loss of
lives and property damage neighborhood preparedness will enhance the ability of individuals and neighborhoods to reduce their emergency
needs and to manage their existing resources until professional assistance becomes available studies of behavior following disasters have shown that
groups working together in the disaster period perform more effectively if there has been prior planning and training for disaster response these
studies also show that organized grassroots efforts may be more successful if they are woven into the social and political fabric of the community
neighborhood associations, schools, workplaces, places of worship, and other existing organizations effective response therefore requires comprehensive planning and coordination of all who will be involved. Government, volunteer groups, private businesses, schools, and community organizations with training and information individuals and community groups can be prepared to serve as a crucial resource capable of performing many of the emergency functions needed in the immediate post-disaster period. The CERT program is designed to train individuals to be assets to help communities prepare for effective disaster response. The purpose of the community emergency response team CERT Basic Training is to provide the individuals who complete this course with the basic skills that they will need to respond to their community's immediate needs in the aftermath of a disaster when emergency services are not immediately available. By working together, CERT members can assist in saving lives and protecting property using the basic techniques in this course. The target audience for this course is individuals who desire the skills and knowledge required to prepare for and respond to a disaster. The second edition of Exam Prep: Hazardous Materials Awareness and Operations is designed to thoroughly prepare you for a hazardous materials certification, promotion, or training examination by including the same type of multiple-choice questions you are likely to encounter on the actual exam. To help improve examination scores, this preparation guide follows Performance Training Systems Inc.'s systematic approach to examination preparation. Exam Prep: Hazardous Materials Awareness and Operations is written by fire personnel explicitly for fire personnel, and all content has been verified with the latest reference materials and by a technical review committee. Your exam performance will improve after using this system. Meant to aid state local emergency managers in their efforts to develop and maintain a viable all-hazard emergency operations plan, this guide clarifies the preparedness response short-term recovery planning elements that warrant inclusion in emergency operations plans. It offers the best judgment recommendations on how to deal with the entire planning process from forming a planning team to writing the plan. Specific topics of discussion include preliminary considerations, the planning process, emergency operations plan format, basic plan content, functional annex content, hazard unique planning, linking federal state operations. This definitive illustrated guide helps schools develop contingency plans and train on site response teams in crisis management. Updated with new information on the impact of crisis on children, detailed strategies and procedures teach how to manage any emergency that may hit a school. 100 charts can be reproduced as overheads or copied for training sessions. The 2020 Emergency Response Guidebook (ERG) provides first responders with a go-to manual to help deal with hazmat transportation accidents during the critical first 30 minutes. DOT's goal is to place an ERG in every public emergency service vehicle nationwide. It is a guidebook intended for use by first responders during the initial phase of a transportation incident involving dangerous goods or hazardous materials. This book contains the FEMA mandated self-study manual needed to become a CERT team member with useful information on how to respond to emergencies. It contains the same information as the PDF which can be downloaded from FEMA.gov at no cost. This book contains...
