format the award winning author of founding brothers and the quartet now gives us a deeply insightful examination of the relevance of the views of george washington, thomas jefferson, james madison, and john adams to some of the most divisive issues in america today. the story of history is a ceaseless conversation between past and present and in american dialogue, joseph j. ellis focuses the conversation on the often asked question: what would the founding fathers think? he examines four of our most seminal historical figures through the prism of particular topics using the perspective of the present to shed light on their views and in turn to make clear how their now centuries-old ideas illuminate the disturbing impasse of today's political conflicts. he discusses jefferson and the issue of racism, adams and the specter of economic inequality, washington and american imperialism, madison and the doctrine of original intent through these juxtapositions and in his hallmark dramatic and compelling narrative voice. ellis illuminates the obstacles and pitfalls paralyzing contemporary discussions of these fundamentally important issues.

from the new york times bestselling author of american psycho and less than zero comes a nihilistic novel set in the early eighties that portrays a chilling descent into the abyss beneath la's gorgeous surfaces. skillfully accomplishes its goal of depicting a modern moral wasteland, arguably ellis's best. the boston globe, the basis of the major motion picture starring billy bob thornton, kim basinger, and mickey rourke, the informers is a seductive and chillingly nihilistic novel in which bret easton ellis returns to los angeles, the city whose moral badlands he portrayed so unforgettably in "less than zero." this time it is the early eighties, the characters go to the same schools and eat at the same restaurants, their voices enfold us as seamlessly as those of djs heard over a car radio. they have sex with the same boys and girls and buy from the same dealers in short, they are connected in the only way people can be in that city.

dirk sees his best friend killed in a desert car wreck then rifles through his pockets for a last joint before the ambulance comes. cheryl, a wannabe newscaster, chides her future stepdaughter: you're tan but you don't look happy. jamie is a clubland carnivore with a taste for human blood. look for bret easton ellis's new novel "the shards." make every step count on your leadership journey. how did american military leaders in the brutal pow camps of north vietnam inspire their followers for six, seven, or eight years to remain committed to the mission, resist a cruel enemy, and return home with honor? what leadership principles engendered such extreme devotion, perseverance, and teamwork in this powerful and practical book? lee ellis, a former air force pilot, candidly talks about his five and a half years of captivity and the fourteen key leadership principles behind this amazing story. as a successful executive coach and corporate consultant, he helps leaders of fortune 500 companies, healthcare executives, small business owners, and entrepreneurs utilize these same pressure tested principles to increase their personal and organizational success.

limited leadership lessons from the hanoi hilton, you will learn an approximately 250 word description of the book as you'd like to see posted online, keeping in mind that this should be enticing to consumers: courageous lessons from pow leaders facing torture in the crucible of captivity, how successful teams are applying these same lessons and principles, how to implement these lessons using the coaching sessions provided in...

New York Times bestseller the timeless classic from the acclaimed author of American Psycho about the lost generation of 1980s Los Angeles who experienced sex, drugs, and disaffection at too early an age. The basis for the cult classic film possesses an unnerving air of documentary reality. They live in a world shaped by casual nihilism, passivity, and too much money in a place devoid of feeling or hope. When Clay comes home for Christmas vacation from his Eastern college, he re-enters a landscape of limitless privilege and absolute moral entropy where everyone drives Porsches, dines at Spago, and snorts mountains of cocaine. He tries to renew feelings for his girlfriend Blair and for his best friend from high school Julian who is careering into hustling and heroin. Clay's holiday turns into a dizzying spiral of desperation that takes him through the relentless parties in glitzy mansions, seedy bars, and underground rock clubs and also into the seamy world of L.A. After Dark. Look for Bret Easton Ellis's new novel, The Shards.

The award-winning author of Founding Brothers and The Quartet now gives us a deeply insightful examination of the relevance of the views of George Washington, Thomas Jefferson, James Madison, and John Adams to some of the most divisive issues in America today. The story of history is a ceaseless conversation between past and present, and in American Dialogue, Joseph J. Ellis focuses the conversation on the often-asked question: What would the founding fathers think? He examines four of our most seminal historical figures through the prism of particular topics using the perspective of the present to shed light on their views and in turn to make clear how their now centuries-old ideas illuminate the disturbing impasse of today's political conflicts. He
discusses jefferson and the issue of racism adams and the specter of economic inequality washington and american imperialism madison and the doctrine of original intent through these juxtapositions and in his hallmark dramatic and compelling narrative voice ellis illuminates the obstacles and pitfalls paralyzing contemporary discussions of these fundamentally important issues

dthis book covers the full spectrum of benign and malignant conditions of the genitourinary tract with emphasis on common entities encountered in daily practice. The volume is heavily illustrated and contains useful algorithms that guide the reader through the differential diagnosis and cytohistologic correlation of common and uncommon entities with appropriate clinical correlations. This book will serve as a valuable quick reference for pathologists, cytopathologists, cytotechnologists, fellows, and residents in the field of genitourinary system cytopathology. Specimens and small biopsies are common specimens with a growing number of renal fine needle aspirations and core biopsy procedures being performed each year. Genitourinary system cytology and small biopsy specimens focus on the correlation between urinary tract cytology and surgical pathology including the evaluation of germ cell tumor metastasis to distant sites. Aspiration and exfoliative cytology samples obtained from all areas of and related to the genitourinary tract are highlighted in individualized chapters. The growing body of information in personalized medicine and molecular discoveries in the field of genitourinary pathology demands focus as well. Hence, an integrated approach to molecular diagnostics is presented in each chapter. In summary, this book will provide an illustrative and algorithmic approach to every day practice of genitourinary cytopathology and small biopsy material using appropriate cytologic histologic correlation format and incorporating recent updates in terminology, guidelines, and ancillary studies.
