Publication Manual of the American Psychological Association 2019-10

blood of tyrants reveals the surprising details of our founding fathers approach to government and this history's impact on today delving into forgotten and often lurid facts of the revolutionary war logan beirne focuses on the nation's first commander in chief george washington as he shaped the very meaning of the united states constitution in the heat of battle key episodes of the revolution illustrate how the founders dealt with thorny wartime issues how do we protect citizens rights when the nation is struggling to defend itself who decides war strategy when should we use military tribunals instead of civilian trials should we inflict harsh treatment on enemy captives if it means saving american lives beirne finds evidence in previously unexplored documents such as general washington's letters debating the use of torture an eyewitness account of the military tribunal that executed a british prisoner founders letters warning against government
Debt and communications pointing to a power struggle between Washington and the Continental Congress vivid stories from the revolution set the stage for Washington’s pivotal role in the drafting of the constitution. The founders saw the first American commander in chief as the template for all future presidents—a leader who would fiercely defend Americans’ rights and liberties against all forms of aggression. Pulling the reader directly into dramatic scenes from history, Blood of Tyrants fills a void in our understanding of the presidency and our ingenious founders’ pragmatic approach to issues we still face today.

The Norton Introduction to Literature presents an engaging, balanced selection of literature to suit any course offering a thorough treatment of historical and critical context. **The Norton Introduction to Literature, 2015-10-08**

This public domain book is an open and compatible implementation of the uniform system of citation.

**Cite Them Right, 2010-08-15**

Television scholarship has substantially ignored programming aimed at black audiences despite a few sweeping histories and critiques in this volume. The first of its kind contributors examine the televisual diversity, complexity, and cultural imperatives manifest in programming directed at a black and marginalized audience. Watching While Black considers its subject from an entirely new angle in an attempt to understand the lives, motivations, distinctions, kindred lines, and individuality of various black groups and suggest what television might be like if such diversity permeated beyond specialized enclaves. It looks at the macro structures of ownership, producing, casting, and advertising that all inform production and then delves into television programming crafted to appeal to black audiences. Historic and contemporary domestic and worldwide chapters rethink such historically significant programs as Roots and Black Journal, such seemingly innocuous programs as Fat Albert and Bro Town, and such contemporary and culturally complicated programs as Noah’s Arc, Treme, and The Boondocks. The book makes a case for the centrality of these programs while always recognizing the racial dynamics that continue to shape black representation on the small screen. Painting a decidedly introspective portrait across forty years of black television watching, Watching While Black sheds much needed light on underexamined demographics, broadens common audience considerations, and gives deference to the preferences of audiences and producers of black targeted programming.

MLA Handbook 2021-04-01

what habits are common among good college writers? Good college writers are curious, engaged, reflective, and responsible. They read critically, they write with purpose, they tune into their audience, they collaborate, and they seek feedback. They know credible evidence makes them credible researchers. They revise. The Bedford Handbook, based on surveys with more than 1,000 first-year college students, fosters these habits and offers more support than ever before for college reading and writing. New writing guides support students as they compose in an ever-wider variety of genres, including multimodal genres. New reading support encourages students to become active readers. Retooled research advice emphasizes inquiry and helps writers cite even the trickiest digital sources confidently and responsibly. Best of all, the handbook remains a trusted companion for students because it is accessible, comprehensive, and authoritative. Instructors benefit too. A substantially revised instructor’s edition includes Nancy Sommers’s personal mentoring. More than 100 new concrete tips for teaching with the handbook. Finally, integrated digital content is easily assignable and helps students practice and apply the handbook’s lessons.
