over 200 pages of practice supported by easy illustrated dot to dot method to make learning cursive
enjoyable and convenient what makes this different from other cursive handwriting workbooks 200
pages of cursive writing practice giving you more cursive handwriting practice for your money
competitors often range from 70 pages to 100 pages only you get double that for about the same or
lower price includes not only the alphabet but cursive numbers as well many competitors don t have
numbers to practice just letters for the ultimate practice write short stories in cursive after story
prompts this is a cursive handwriting workbook for kids grades 2-5 it is important to know that
neuroscientists believe that learning cursive is developmentally beneficial for the human brain at any
stage writing by hand especially in cursive is vital in training the brain to practice and improve more
skills and senses all at once hand eye coordination patience self control and a sense of involvement
and ownership all this is done while learning more about the english language the book starts with the
basic alphabet and numbers to develop the required muscle memory and progressively advances to
words sentences then finally whole stories it builds an understanding of how to form each cursive letter
and number correctly and connect them this book takes the writer on a skill building journey of learning
the dot to dot method then tracing the cursive letters and numbers then introducing free handwriting
connecting multiple letter words some short some long in cursive advancing to writing simple and
complex sentences in cursive the included story prompts give a great foundation for writing cursive in
paragraphs a free practice section for writing anything you need in cursive in this workbook you will
find various writing exercises in over 200 pages the lines in the book are wide legal ruled the book is 8
5 x 11 inches giving a wide berth to practice the letter size is customized for kids to help with learning
cursive writing on ruled lines what s is included part 1 starts of with the alphabet where writing letters
in both lowercase and capital forms are practiced through tracing and connecting the dots each letter
is presented with directional arrows to guide the hand movements this book has plenty of space with a
whole page for practicing each letter then it gives lessons on writing all numbers in cursive form as
well once letters are learned part 2 builds on the previous knowledge with word building a list of words
starting with each letter is first practiced so that one can learn how to connect different letters longer
common words for family relationships common items directions times and such are presented in the
second half of part 2 short words and longer words are included in each list part 3 is all about
sentences common sentences are traced and then free writing of the sentence finishes each this is so
that one can be comfortable writing longer in preparation for the next section part 4 puts it all together
by giving story prompts initiative and creativity are tested with this ultimate practice of cursive writing a
couple pages for each story prompt is available to make a short story once finished be confident that
you have learned cursive extensively enough part 5 is a collection of empty free practice pages once
you have mastered cursive
