illustrate these technological transfers have taken various forms including the training of Latin American military personnel in surveillance and torture and the provision of political and logistic support for campaigns of state terrorism. The human cost for Latin America has been enormous; thousands of Latin Americans have been murdered or tortured, and whole communities have been terrorized into silence. Organized by region, the essays in this book address the topic of state-sponsored terrorism in a variety of ways. Most take the perspective that state-directed political violence is a modern development of a regional political structure in which U.S. political interests weigh heavily. Others acknowledge that Latin American states enthusiastically received U.S. support for their campaigns of terror. A few see local culture and history as key factors in the implementation of state campaigns of political violence. Together, all the essays exemplify how technologies of terror have been transferred among various Latin American countries with particular attention to the role that the United States as a strong state has played in such transfers. The Cambridge History of Latin America is a large-scale collaborative multi-volume history of Latin America during the five centuries from the first contacts between Europeans and the native peoples of the Americas in the late fifteenth and early sixteenth centuries to the present. Latin America Politics and Society since 1930 consists of chapters from Part 2 of Volume VI of the Cambridge History that provide a thorough account of political movements in Latin America. Each chapter is accompanied by a bibliographical essay. Monsignor Franco is known as an engaging storyteller of his impactful time in the church. Read this book, and you will see why Timothy Cardinal Dolan, Archbishop of New York, wrote, 'of the Church remembers is Monsignor Hilary C. Franco's engaging memoir, and a story only a son can tell of the Catholic Church and of Italian immigrants from Belmont, his Bronx neighborhood. Franco rose to work with the highest and most influential figures of the Roman Catholic Church as a young man. He attended Rome's Premier Seminary soon after becoming the Special Assistant to Archbishop Fulton Sheen as a priest. He would travel the world and recount a harrowing experience in the deep south in the early 1960s. His work at the Vatican Councils that redefined the church and his time posted at the Church's diplomatic missions in Washington D.C. and the United Nations. This most formidable churchman reveals his tales of intellectual, pastoral, and diplomatic service to the Catholic Church with recollections of the fascinating people he came to know from U.S. presidents and foreign heads of state to religious leaders like Padre Pio and Saint Mother Teresa. The title of his current role, Advisor at the Permanent Observer Mission of the Holy See to the United Nations, gives little hint of the drama of the times. He recollects stories of this book's six pontiffs that Franco served under John XXIII, Paul VI, John Paul I, John Paul II, Benedict XVI, and Francis. This book offers landmarks along Franco's trek through the corridors of spiritual power in New York, Washington D.C., and Rome. Six popes: a son of the church remembers is written from a unique eyewitness vantage on many of the events and movements that shaped our world and the Catholic Church. There is really no other book like it.
