The World of Lore, Volume 1: Monstrous Creatures 2017-10-10

a fascinating beautifully illustrated collection of stories from the hit podcast lore now an online streaming series they live in shadows deep in the forest late in the night in the dark recesses of our mind they’re spoken of in stories and superstitions relics of an unenlightened age old wives tales passed down through generations and yet no matter how wary and jaded we have become as individuals or as a society a part of us remains vulnerable to them werewolves and wendigos poltergeists and vampires angry elves and vengeful spirits in this beautifully illustrated volume the host of the hit podcast lore serves as a guide on a fascinating journey through the history of these terrifying creatures and explores not only the legends but what they tell us about ourselves aaron mahnke invites us to the desolate pine barrens of new jersey where the notorious winged red eyed jersey devil dwells mahnke delves into harrowing accounts of cannibalism some officially documented others the stuff of speculation perhaps he visits the dimly lit rooms where séances take place the european villages where gremlins make mischief and key west florida home of a haunted doll named robert the monsters of folklore have become not only a part of our language but a part of our collective psyche whether these beasts and bogeymen are real or just a reflection of our primal fears we know on some level that not every mystery has been explained and that the unknown still holds the power to strike fear deep in our hearts and souls as aaron mahnke reminds us sometimes the truth is even scarier than the lore praise for the lore podcast truth can often be much scarier than fiction something mahnke proves as he dives deep into the world of folklore and the darker side of history in a quest to root out the fragment of truth at the bottom of our fears entertainment weekly narrated by mahnke in a style that evokes spooky campfire stories lore is a history lesson like no other esquire

Monsterology 2008-08-12

a second major volume by the esteemed dr drake a lavish exploration of fantastical beasts from yetis to unicorns do krakens really lurk below the ocean waves do griffins command the air above in a fascinating new discovery sure to rival the ground breaking dragonology the intrepid dr ernest drake turns his inquisitive gaze from dragons to other so called mythical creatures included are a removable letter from dr...
The Monstrous Alphabet 2017-10-03

take a journey through the world of monstrous creature of all different cultures we follow the abc and learn through story where these creatures are feared an abc book not for children alone this book is a sort of field journal of different creatures and myths in different cultures from around the world it tells about each creature in a beautiful poem written by a talented young lady the illustrations are spot on with the creepiness of each character coming through and keeping you wanting to know more

Monsters and Monstrosity 2019-06-17

every culture knows the phenomenon of monsters terrifying creatures that represent complete alterity and challenge every basic notion of self and identity within a cultural paradigm in latin and greek culture the monster was created as a marvel appearing as something which like transgression itself did not belong to the assumed natural order of things therefore it could only be created by a divinity responsible for its creation composition goals and stability but it was triggered by some in or non human action performed by humans the identification of something as monstrous denotes its place outside and beyond social norms and values the monster evoking transgression is most often indistinguishable from reactions to the experience of otherness merging the limits of humanity with the limits of a given culture the topic entails a large intersection among the cultural domains of law literature philosophy anthropology and technology monstrosity has indeed become a necessary condition of our existence in the 21st century it serves as a representation of change itself in the process of analysis there are three theoretical approaches psychoanalytical representational ontological the volume therefore aims at examining the concept of monstrosity from three main perspectives technophobic xenophobic superdiversity today's globalized world is shaped in the unprecedented phenomenon of
international migration the resistance to this phenomenon causes the demonization of the other seen as the antagonist and the monster the monster becomes therefore the ethnic other the alien to reach this new perspective on monstrosity we must start by examining the many facets of monstrosity also diachronically from the philological origin of the term to the roman and classical viewpoint from the renaissance medical perspective to the religious background from the new filmic exploitations in the 20th and 21st centuries to the very recent ethnological and anthropological points of view to the latest technological perspective dealing with artificial intelligence

Monsters, Monstrosities, and the Monstrous in Culture and Society

existing research on monsters acknowledges the deep impact monsters have especially on politics gender life sciences aesthetics and philosophy from sigmund freud s essay the uncanny to scott poole s monsters in america previous studies offer detailed insights about uncanny and immoral monsters however our anthology wants to overcome these restrictions by bringing together multidisciplinary authors with very different approaches to monsters and setting up variety and increasing diversification of thought as guiding patterns existing research hints that monsters are embedded in social and scientific exclusionary relationships but very seldom copes with them in detail erving goffman s doesn t explicitly talk about monsters in his book stigma but his study is an exceptional case which shows that monsters are stigmatized by society because of their deviations from norms but they can form groups with fellow monsters and develop techniques for handling their stigma our book is to be understood as a complement and a further development of previous studies the essays of our anthology pay attention to mechanisms of inequality and exclusion concerning specific historical and present monsters based on their research materials within their specific frameworks in order to create engaging constructive critical and diverse approaches to monsters even utopian visions of a future of societies shared by monsters our book proposes the usual view that humans look in a horrified way at monsters but adds that monsters can look in a critical and even likewise frightened way at the very societies which stigmatize them
move over king kong there are new monsters in town giant beetles towering crustaceans gargantuan felines and massive underwater beasts to name just a few think you ve got what it takes to survive their attacks then open this baby up and join today s hottest authors as they show us the true power of mother nature s creatures with enough fangs pincers and blood to keep you up all night we promise you won t look at creepy crawlies the same way again

take a journey through the world of monstrous creatures of all different cultures we follow the abcs and learn through stories where these creatures are feared an abc book not for children alone this book is a sort of field journal of different creatures and myths in different cultures from around the world it tells about each creature in a beautiful poem written by a talented young lady the illustrations are spot on with the creepiness of each character coming through and keeping you wanting to know more

The Understanding Monster – Book Three
2015

an urgent and often very funny attempt to explain a coocoo rococo cosmology made up of garbled fragments of role playing games transformers episodes relaxation exercises and horror movies the new york times the final chapter of this epic trilogy finds our hero izadore awoken with his mind body and soul reunited the last monks of the imaginary man lead him beyond toy mountain to discover the true nature of the relationship between imagination and reality not simply concluding the relentless psychedelic plot the understanding monster book three explains how our creativity re shapes our world how we can overcome doubt through self actualization

Only a Monster 2022-02-22

the sweeping romance of passenger meets the dark fantasy edge of this savage song in this stunning contemporary fantasy debut from vanessa len where the line between monster and hero is razor thin don t forget the rule no one can know what you are what we are you must never tell anyone about monsters...
Joan has just learned the truth: her family are monsters with terrifying hidden powers and the cute boy at work isn’t just a boy; he’s a legendary monster slayer who will do anything to destroy her family to save herself and her family. Joan will have to do what she fears most: embrace her own monstrousness because in this story, she is not the hero. Dive deep into the world of only a monster hidden worlds dwell in the shadows. Beautiful monsters with untold powers walk among humans and secrets are the most powerful weapon of all.

**Mythic Monsters 2014-07-14**

The 16th volume in our mythic monsters series, Mythic Monsters: Monstrous Humanoids, brings you a dozen and one half human monsters. Some few are indifferent to the ordinary humanoids that cross their path, simply being another intelligent species on a world full of magic and strangeness, but for others, their nearly human shape belies their cunning cruelty and predatory inhumanity. The creatures herein include mythological classics from all over the world: like the horse-bodied centaur of Greece, the abominable snowmen of the Himalayas, the yeti, the blood-hungry sea hunters of the Solomon Islands, the adaro, the sinister and spiny pukwudgie of New England, and the brutal buggane of the Isle of Man.

You will also find a host of horrid hags and classical fantasy archetypes from doppelgangers and mongrelmen to pulp staples like Derhii winged apes and serpentfolk as if this deadly dozen were not enough, you also bring you the Xotenga, a flying fiend from the wild wastes that feeds on hunger and is sated only by suffering a creature that lives and breathes famine and desolation in a rain of deadly feathered shafts plucked from its own desiccated wings on top of these monstrous mutants Mythic Monsters: Monstrous Humanoids also provides you a new tool for creating your own awful amalgams: the tauric template for non-mythic creatures and an enhanced mythic tauric template as well. Just perfect for the mad scientists, corrupt genegineers, and beast cultists all over your campaign world. The 13 magical beasts contained herein ranging in CR from 1 to 13 are updated for the mythic rules and when we say updated, we mean complete stat blocks, yes, but more than that: every one of these massive menaces has its own unique and exciting new mythic abilities from a mythic annis hag’s fearful strength and grisly grappler to the earth distortion and rending butchery of a mythic buggane. The Mythic Monsters series from Legendary Games brings you dynamic and exciting mechanics alongside evocative and cinematic new abilities that really help creatures live up to their flavor text, whether they are creatures of real-world myth and legend or
creatures born out of the rpg tradition itself these creatures can work just as well in a non mythic campaign as they do in one that incorporates the full mythic rules as you can throw them at your jaded players who think they've seen it all or know the standard monster stats as well as you do that look of surprise and what was that will warm any gm's heart

The Monster Book of Monsters 1988

this brand new adventure series is filled with laughs danger and facing fears follow freddy von frankenstein and his monster big brother f m as well as and his adopted sister a werecat named riya as they explore the supernatural mountain they call home and discover all the fantastical creatures living there it's the day before freddy's eighth birthday and he's so excited that he's old enough to go to town for the first time however his brother's holographic disguise goes awry forcing them to run away before the townsfolk realize that f m is a big hulking monster on their way home they run into a strange tiger unlike any they've seen before freddy zooms away from it as he's scared of fantastical creatures that weren't created by science like his brother was the next morning freddy's parents introduce him to riya who mysteriously showed up and needs a place to stay freddy is wary worried that she's going to take his parents attention away from him especially on his birthday he thinks she might be hiding something but when the tiger comes back and riya disappears freddy has to put his suspicion aside to find her can he brave his fear of the fantasticals to get riya back home safely

Monster and Me 1: Who's the Scaredy-Cat? 2022-07-05

the contributors to monster theory consider beasts demons freaks and fiends as symbolic expressions of cultural unease that pervade a society and shape its collective behavior through a historical sampling of monsters these essays argue that our fascination for the monstrous testifies to our continued desire to explore difference and prohibition
