American Jewish Year Book has served as an indispensable resource for scholars, clergy, and lay leaders, providing crucial detailed insights into demographic shifts and sociological trends in the North American Jewish community. The latest edition continues to fulfill these important needs with essential articles on the landmark Pew report and the impact of the Holocaust in the American Jewish community and American in general. This is a must-have volume for any serious student of the contemporary Jewish world. Jeffrey Shoulson, Senior Vice Provost for Academic Affairs, Professor of Literatures, Cultures, and Languages, and English Director Emeritus, Center for Judaic Studies and Contemporary Jewish Life, University of Connecticut. The American Jewish Year Book is a critical snapshot of Jews and Jewish studies in the United States in a particular year and a valuable resource for scholars studying the changes in Jewish communities and Jewish studies in the United States and beyond over time. The AJYB highlights major publications and data that are consistently used in research and its scholarly essays contextualize the information in an easily readable context. The lists of important institutions and organizations are invaluable for someone interested in the broader Jewish experience or at the most practical, a Jewish organization in their neighborhood. Michelle Margolis Chesner, Norman E. Alexander librarian for Jewish Studies, Columbia University. This state-of-the-art account gives readers the tools to understand why antisemitism is such a controversial subject. It acquaints readers with the ambiguities inherent in the historical relationship between Jews and Christians and shows these ambiguities in play in the unfolding relationship between Jews and Canadians of other religions and ethnicities. It examines present relationships in light of history and considers particularly the influence of antisemitism on the social, religious, and political history of the Canadian Jewish community. A History of Antisemitism in Canada builds on the foundation of numerous studies on antisemitism in general and on antisemitism in Canada in particular as well as on the growing body of scholarship in Canadian Jewish studies. It attempts to understand the impact of antisemitism on Canada as a whole and is the first comprehensive account of antisemitism and its effect on the Jewish community of Canada. The book will be valuable to students and scholars not only of Canadian Jewish studies and Canadian ethnic studies but of Canadian history, Canadian multiculturalism, and the far right. It examines a neglected aspect of the history of 20th-century Canadian multiculturalism and the far right to illuminate the ideological foundations of the concept of third force focusing on the particular thought of ultra-conservative Ukrainian Canadian Walter J. Bossy during his time in Montreal, 1931-1970s. This book demonstrates that the idea that Canada was composed of three equally important groups emerged from a context defined by reactionary ideas on ethnic diversity and integration. Two broad questions shape
this research first what the meaning originally attached to the idea of a third force was and what the intentions behind the conceptualization of a trichotomic canada were and second whether bossy s understanding of the third force precedes or is related in any way to postwar debates on liberal multiculturalism at the core of which was the existence of a third force this book will be of interest to students and researchers of multiculturalism radical right ideology and the far right and canadian history and politics natural selections traces the history of the first four parks in atlantic canada through the selection expropriation development and management stages alan maceachern shows how the parks branch s preconceptions about the landscape and people of the region shaped the parks created there in doing so he details the evolution of the park system from the conservation movement early in the century to the rise of the ecology movement maceachern analyzes parks canada s efforts to fulfill its twin mandates of preservation and use arguing that the agency never favoured one over the other but oscillated between more or less interventionist in ensuring both touching on a wide range of matters from landscape aesthetics to tourism promotion from ddt to martin luther king natural selections expands our understanding of the relation between nature and culture in the twentieth century this second edition volume expands on the previous edition with discussions about the latest viral metagenomics aspects covering a range of different specimens such as soil freshwater wastewater fecal samples blood plasma clinical tissues fungi and herbarium samples chapters also look at different viral groups including archaeal viruses eukaryotic viruses phages mycoviruses and circular dna viruses techniques required for studying the three viral metagenomic steps of samples processing library construction and analysis of data are also discussed written in the highly successful methods in molecular biology series format chapters include introductions to their respective topics lists of the necessary materials and reagents step by step readily reproducible laboratory protocols and tips on troubleshooting and avoiding known pitfalls authoritative and cutting edge vital metagenomics methods and protocols second edition is a valuable resource for researchers who are interested in learning more about this important and developing field a dictionary of artists signatures that includes styles dates nationality and prices of artist works that have sold at auction created for the purpose of identification of artworks this is a collection of independent works on the globus model a first and basic application of the globus model was made through the computation of its standard run for the years 1970 2010 stated in the simplest possible terms globus is a computer simulation model of many important macropolitical and macroeconomic relationships within and among 25 prominent contemporary nations plus a rest of world entity it is designed and used to explore possible

ineffective response was part of a broader problem in which passivity and a belief in quiet diplomacy undermined many of its efforts to combat intolerance. Stingel shows that both Social Credit and Congress changed considerably in the post-war period as Social Credit abandoned its anti-Semitic trappings and Congress gradually adopted an assertive and pugnacious public relations philosophy that made it a champion of human rights in Canada. Social Discredit offers a fresh perspective on both the Social Credit movement and the Canadian Jewish Congress substantively revising Social Credit historiography and providing a valuable addition to Canadian Jewish studies since its first appearance in 1967. Russell Harper's classic study of Canadian painting has been recognized as the outstanding authority on the subject. This edition provides a comprehensive survey generously illustrated of three centuries of Canadian painting from its beginnings in the seventeenth century through a lively combination of entertaining anecdotes, descriptions of the cultural background, biographical accounts, and critical judgement. The reader comes to know intimately the artists, their paintings, and their environments. Included are 173 reproductions, 45 added since the first addition. They allow the reader to see representative works from all periods and provide a visual record of the cultural and social history of Canada. This book presents a critical reflection on the major armed conflicts that occurred during the 1990s and the first decade of the twenty-first century. Conflicts in Bosnia, Kosovo, Chechnya, Iraq, Afghanistan, and Syria all involved the use of terrorism by one or more groups. Looking to the future, the book asks what this means for violent conflicts yet to come. Using a variety of case studies, the authors provide a systematic and comprehensive analysis of the role played by terrorism as a stand-alone tactic as well as one used to ignite broad scale conflict. They also pose the question on what occasions does terrorism tend to occur as an armed conflict begins to subside and when, in other words, is it a trailing indicator offering readable, rigorous analyses rather than polemics. Professors and their politics yields important new insights into the nature of higher education institutions while challenging dogmas of both the left and the right. The Library has the National Archives microfilms M313 used in preparing this index see entry in the author title catalog under United States Veteran's Administration Index of War of 1812 Pension Application Files. Underlying current controversies about environmental regulation are shared concerns, divided interests, and different ways of thinking about the earth and our proper relationship to it. This book brings together writings on nature and environment that illuminate thought and action in this realm. Recent international subsidy regulation is contributing to a dual transformation of the state: the state is increasingly liberal as expenditure is channelled into particular activities, and it is less sovereign as key decision making authority is transferred.

The stone is the unlikely story of Ramzi Hussein Aburedwan, a boy from a Palestinian refugee camp in Ramallah who confronts the occupying army. He gets an education, masters an instrument, dreams of something much bigger than himself, and then inspires scores of others to work with him to make that dream a reality. That dream is of a music school in the midst of a refugee camp in Ramallah — a school that will transform the lives of thousands of children through music. Daniel Barenboim, the Israeli musician and music director of La Scala in Milan and the Berlin Opera, is among those who help Ramzi realize his dream. He has played with Ramzi frequently at chamber music concerts in Al Kamandjati, the school Ramzi worked so hard to build and in the West Eastern Divan Orchestra that Barenboim founded with the late Palestinian intellectual Edward Said. Children of the stone is a story about music, freedom, and conflict — determination and vision. It's a vivid portrait of life amid checkpoints and military occupation, a growing movement of nonviolent resistance, the past and future of musical collaboration across the Israeli-Palestinian divide, and the potential of music to help children see new possibilities for their lives. Above all, Children of the Stone chronicles the journey of Ramzi Aburedwan and how he worked against the odds to create something lasting and beautiful in a war torn land.

dealing with difficult people

this expanded and updated edition of Canadian Multiculturalism and the Far Right examines policy making in one of the most significant areas of activity in the Canadian economy: natural resources and the environment. It discusses the evolution of resource policies from the early era of exploitation to the present era of resource and environmental management, including the Kyoto protocol. Using an integrated political economy and policy perspective, the book provides an analytic framework through which ideological perspectives and substantive issues are explored.

in social discredit, Janine Stingel exposes a crucial yet previously neglected part of Social Credit history: the virulent anti-Jewish campaign it undertook before, during, and after the Second World War. While most Canadians acknowledged the perils of race hatred in the wake of the Holocaust, Social Credit intensified its anti-Semitic campaign by examining Social Credit's anti-Semitic propaganda and the reaction of the Canadian Jewish Congress. Stingel details their mutual antagonism and explores why Congress was unable to stop Social Credit's blatant defamation. She argues that Congress's ineffective response was part of a broader problem in which passivity and a belief in quiet diplomacy undermined many of its efforts to combat intolerance. Stingel shows that both Social Credit and Congress changed considerably in the post-war period, as Social Credit abandoned its anti-Semitic trappings and Congress gradually adopted an assertive and pugnacious public relations philosophy that made it a champion of human rights in Canada. Social Discredit offers a fresh perspective on both the Social Credit movement and the Canadian Jewish Congress, substantively revising Social Credit historiography and providing a valuable addition to Canadian Jewish history.
