Singapore's best homegrown car magazine, with an editorial dream team driving it, we fuel the need for speed since 1990. Foreign direct investment (FDI) has quickened economic modernization in Central Europe, state-of-the-art management techniques and cutting-edge technology have been introduced in many cases. Labour relations are an essential factor in the organization of labour and production. At the start of the process, industrial relations were characterized by the conditions existing under the previous planned economies or as with greenfield investments, had to be entirely reconfigured. In the case of investments by West European companies, this book reveals various emerging models of industrial relations but also a clear tendency towards company centralization for the time being. The European Works Council still plays a subordinate role despite its potential fundamental role as mediator between East and West. Empirically, nine corporations from the metal automotive industry, the chemical energy and food processing industries, with their subsidiaries in Poland, Czech Republic, and Slovakia are considered for 30 years. Some of the most talented and bravest drivers have battled across the continents of the world to claim what is arguably motorsport's toughest prize, the World Rally Championship. Now a multi-million-dollar global technology battle and terrestrial television phenomenon played out over the frozen wastes of Finland, the dusty plains of Australia, and the sun-kissed mountain roads of Corsica.

The WRC has reached its 30th birthday. This book celebrates that important milestone and paints an exhaustively detailed picture of the people and personalities who have shaped this great sport. The complete book of the World Rally Champions provides a biographical account of the 65 men who have won at least one World Championship rally since 1973. The biographies are compiled by the sport's leading writers and historians, and complemented by stunning photography. The book includes a detailed and accurate statistical career record of each driver plus highlights of all the significant cars. A hidden corner of Eastern Europe, Montenegro, lies across the Adriatic Sea from Italy. Its stark mountains rising up from the coast offer superb year-round eco-adventure and sports facilities. Medieval architectural gems vie for attention with more recent Venetian fortresses and churches reflecting the diversity of Montenegro's culture. The Eastern Border lies Lake Skadar, a nature lover's dream with national park status. Updated throughout this edition, it has all the practical information the independent traveller needs, including new hotels and restaurants on the coast and in the mountains. Outdoor and cultural enthusiasts will enthuse over the extended coverage on national parks, fishing opportunities, and archaeological finds.

As soon as there were automobiles, there was racing. The first recorded race, an over-road event from Paris to Rouen, France, was organized by the French newspaper Le Petit Journal in 1894. Seeing an opportunity for a similar event, Herrmann Kohlsaat, publisher of the Chicago Times Herald, sponsored what was hailed as the race of the century: a 54-mile race from Chicago's Jackson Park to Evanston, Illinois, and back. Frank Duryea won in a time of 10 hours and 23 minutes, of which 7 hours and 53 minutes were actually spent on the road. Race cars and competition have progressed continuously since that time and today's 200 mph races bear little resemblance to the event Duryea won. This work traces American auto racing through the 20th century, covering its significant milestones, developments, and personalities. Subjects included are Bill Elliott, dirt track racing, board track racing, Henry Ford, Grand Prix races, Dale Earnhardt, the
