Rumely Oil-Pull Tractor

Compact utility tractors or cutters as farming became more refined so did the needs of tractors. The answer was a smaller, more maneuverable, and fuel-efficient tractor with a variety of implements and attachments. With this focus on special needs, attachments became available such as plows, disc harrows, mower decks, cultivators, spreaders, snowblowers, and more.
they have become a necessary utility for farmers orchards small construction jobs and landscaping maintenance for estates parks and golf courses at the forefront of this evolution was the farmall cub and john deere model l then came the japanese invasion a new kind of tractor by companies such as yanmar and kubota these four wheel drive machines were rugged and tough and used a variety of hydraulically powered attachments american companies like john deere international harvester and massey ferguson built their own their own four wheel versions today s compact tractors such as the kubota bx series massey ferguson s gc series and the john deere 3000 offer an even larger selection of implements for special purposes
