organisations such as the springbok legion the war veterans torch commando and the memorable order of tin hats moth roos offers a new framework for examining the social cultural and political history of whites and whiteness in south africa the book will appeal to those interested in the elaboration of apartheid society and the types of acceptance and resistance that it engendered and will also co

South Africa revels in its reputation as a sport loving country yet just beneath the surface lurks a dark underbelly that reeks of cheating and illicit shenanigans where shady characters and willing athletes are prepared to do whatever it takes to come out on top. South African sport is awash with steroids a habit that formed in the late 1980s and continues unabated today with participants and champions alike opting to play dirty guns and needles infiltrates an extraordinary environment that includes the story of the youngest athlete who happens to be a South African to ever test positive with doping numbers far higher than the international average. Prominent sportswriter Clinton van der Berg probes why this is so many of the stories have never been told including that of the death of a young rugby aspirant and the bodybuilder who talks candidly of his thirty year odyssey with steroids guns and needles also un_masks the rampant level of steroid use in schoolboy rugby and the prominent busts at senior and Springbok level while examining the murky steroid underworld and related deaths as well as the doping culture in boxing athletics and other sports. This is a gripping read filled with drama tragedy and scarcely believable stories.

Springbok was a term used to describe the 200,000 white South African men who volunteered to serve during the Second World War. Volunteers developed bonds of comradeship and rites of passage were expressed in the idiom of the front. Without exception, volunteers nurtured hopes for some form of post-war social justice. Neil Roos provides a fresh approach in considering comradeship and social justice ethnographically as a way of focusing on ordinary springboks' expectations and experiences during and after the war. As troops were demobilized, the contradictions of social justice in a colonial society were exposed. The majority of white veterans used the memory of service to stake their claim as white men who had served their country and to negotiate a better position for themselves within the context of segregated colonial society. However, social justice amongst white veterans did not necessarily assume a racist character. A small group of radical white veterans invoked their war experience and traditions of anti-fascism to challenge the very precepts of racialized South African society. These veterans featured in the struggle against apartheid during the 1950s and were especially prominent in the shift towards armed resistance to apartheid in 1961. Drawing heavily on the testimony of veterans, the book includes previously unreferenced documentary and visual material on the history of white servicemen, including official responses such as military intelligence reports on the political mood of serving soldiers as well as material produced by veterans' organizations such as the Springbok Legion, the War Veterans Torch Commando, and the Memorable Order of Tin Hats. Moth Roos offers a new framework for examining the social, cultural, and political history of whites and whiteness in South Africa. The book will appeal to those interested in the elaboration of apartheid society and the types of acceptance and resistance that it engendered and will also co-
