Products Liability Law outlines the doctrines and approaches that are more or less universally accepted and applied throughout the nation but it does not stop there. It goes on not only to identify where there are controversies but also to suggest appropriate strategies for framing events in a plausible and persuasive manner.

Fundamentals of Product Liability Law for Engineers

Fundamentals of product liability written for the engineer so that it does not require any background in law nor any proficiency in legalese includes edited versions of actual court decisions that will enable readers to develop an appreciation for the manner in which judges analyze cases and therefore render decisions.

Fundamentals of a Product Liability Claim

Fundamentals of a product liability claim. Toys, pharmaceuticals, sporting equipment, personal hygiene products, beauty products, appliances, and more can all be defective and when a consumer uses a defective product, they unknowingly are put at significant risk for serious bodily harm and death.

5 Fundamentals of Product Liability Law in Philadelphia

In Philadelphia, the fundamental principles of product liability law revolve around three main types of defects: these defects include design defects, manufacturing defects, and marketing defects. Design defects refer to flaws in the product's design that make it inherently dangerous or unfit for its intended use.

Chapter 6 Product Liability

6.2a Strict product liability and public policy. Consumers should be protected from unsafe products. Manufacturers and distributors should be liable to any user of the product. Manufacturers, sellers, and distributors can bear the costs of injuries.
