development of the company also includes a development of the pedestrian rotary hoe in australia arthur clifford howard was a great australian inventor and manufacturer of farming equipment in 1912 he built a prototype rotavator powered by a motorcycle engine owners of large wheat farms expressed interest but only if he could create a machine that could match or better the work of horse teams by 1922 his first tractor was demonstrated he got orders for 6 machines working initially from moss vale the austral auto cultivators was registered he also produced rotary hoe attachments for fordson tractors in 1927 the business moved to northmead in 1926 saw the production of the a16 tractor in 1927 the revolutionary walk behind tractor in 1930 the company produced the 16 model the fwhd22 models were produced 1953 saw the kelpie tractor with a variety of implements including the dozer blade tipping trailer disc harrows tool bar mouldboard plough and spray pack later models introduced the underbelly slasher spring tyte cultivator rear grades blade and field roller low cost garden tractor that will find a place with every market gardener poultry farmer and small orchardist as the advertising blurb read when the factory was closed in 1985 anything that was left was written off and dumped including valuable literature and information on the machines shane djuric is an expert on howard tractors and rotavators his interest began as a child clambering over his grandfather s retired kelpie garden tractor on their property in the hawkesbury he restored his first howard tractor he realised there was a dearth of information about the brand robert moore another enthusiast had started a register of howard machinery so that others could share knowledge and learn more shane began taking his growing collection to vintage machinery shows with robert and other register members gathering information about machinery and the history of the company shane writes this book has been done to cover the most frequently asked questions in regards to what model tractor had which particular features and as this information has helped me i now hope that it may help you photographs illustrate the various tractors and details are given to help identify each model throughout there are contemporary advertisements for the various tractors howard tractors are a part of australia s reich island hopping in the pacific the defeat of japan and the marshall plan the knowledge of ecology and epidemiology of rhizomania is particularly useful to understand the means and practices able to limit or avoid its further diffusion some promising methods of biological control using coexisting and non pathogenic organisms could potentially help improve the action of the not completely effective genetic resistance described previously very valuable information could be used to achieve the development of resistance breaking strains in the bnyvv where the known types of resistance alone or in combination seem to have lost part of their original ability to protect the crop therefore further efforts will be needed to discover new traits likely still present in the wild species of the genus beta the availability of large collections of germplasm stored in the international beta gene banks should ensure the enhanced efficiency of genetic resistance by means of conventional and marker assisted selection methods some almost immune transgenic varieties seem already to be waiting for release where and when it will be possible the introduction chapter describes briefly the sugar beet crop the more common diseases and the damage caused recent chapters discuss biological properties of the causal virus bnyvv and its vector polymyxa betae and their interactions with the environment and the host plant in particular the great advances in research of the molecular biology of bnyvv should be noteworthy which have been established by a wide range of the most modern methods recent work focused on the genetic diversity and evolution of bnyvv is moving forward our understanding of the dramatic worldwide epidemics of rhizomania newly developed molecular techniques
