an industry leader’s guide to making Lyft and Uber work for you in less than five years. Ridesharing has grown from nonexistence into a billion dollar industry. Uber now has two million drivers in the United States. Lyft has seven hundred thousand and both show no signs of slowing down despite the large number of drivers. Uber and Lyft provide little in the way of help for new drivers who complain that there is a lack of guidance when starting out. Harry Campbell, founder and director of the Rideshare Guy blog and podcast, and a driver himself, can help. The Rideshare Guide offers a comprehensive and engaging handbook for current and prospective rideshare drivers. Learn how to decide between Uber and Lyft, maximize passengers and profits, maintain a five-star rating, keep safe and interact appropriately with passengers, navigate legal matters and tax codes. Campbell explains these and much more, also including funny, shocking, and bizarre tales from the road. Whether you are thinking about becoming a driver or a veteran wondering about UberPool and tax help, The Rideshare Guide by the Rideshare Guy has the answers. New release 2019: Thinking about becoming an Uber driver and/or Lyft driver you have questions? Let’s cut right to the chase. This book how to be a Lyft and Uber driver the unofficial driver’s manual doesn’t waste any time repeating content found on the
Uber and Lyft websites this first of a kind book documents everything the author wished he knew before his first trip as a Lyft and Uber driver. All of how to be a Lyft and Uber driver the unofficial driver's manual content is dedicated to helping you have a successful rideshare driving business earning maximum income with no stress. There are other rideshare driving books on Amazon. Why buy this book for that matter? Why buy a book at all? Why not just go to the Uber Lyft website, sign up, qualify, then go out and drive from the author? If rideshare driving is such a great gig, then why do 50% of new drivers quit less than 30 days after their first trip as a driver? At the end of a year, over 90% have stopped being a rideshare driver. An even better reason to buy this book comes from a 2018 research report from Stanford University Graduate School of Business showing that rideshare drivers with over 2,500 lifetime trips earn on average 14% more compared to new drivers. After reading this book, you'll know at least as much as a driver with 2,500 trips, meaning you'll earn more than enough to pay for the small cost of this book soon after you get out on the road and start completing your own trips. How to be a Lyft and Uber driver the unofficial driver's manual is well researched and professionally written thanks in part to the author's 15 years experience in Corporate America as a data analyst, technical writer, training content developer as well as a technical training presenter and training coach. Wylee Post's professional profile on LinkedIn shows the content of How to Be a Lyft and Uber Driver the Unofficial Driver's Manual is drawn from the author's real-world experiences driving for Uber and Lyft in Denver, Colorado since April of 2016 and completing over 13,000 trips as a driver. This book How to Be a Lyft and Uber Driver the Unofficial Driver's Manual and the companion book Driving for Uber and Lyft How Much Can Drivers Earn provide the previously missing rideshare driver employee success manuals and they are laser-focused on helping new and existing drivers realize the claim of...

dollars by 2030 and become a major portion of the world economy don t get left behind in this giant tsunami wave of economic and job development what s more important is how fast the new gig economy is changing so many lives and even the fabric of the american markets don t get left behind we may be entering one of the most challenging epochs in history as we slowly cause more and more climate change and governments are helpless to do anything about it this means the migration of billions of people all over the planet and this is why the estimates of the mobility app industry is probably extremely under stated it s this author s opinion that everything your job your retirement your health care your jobs your food and your safety even your home will become a mobile app commodity there are currently around 10 million uber and lyft drivers around the world and very quickly they will be replaced by robots if you are an uber and lyft driver you need to take action now at howuberandlyftdriversmakemoremoney com behind the wheel from uber lyft to taxi by kelly dessaint is a personal narrative zine about life as a taxi driver in san francisco the author is unapologetically against ride sharing services uber and lyft and the unique perspective of having worked for them before becoming a taxi driver gives new depth to the divide between the two the stories are gritty and unvarnished and attempt to show what life is really like as a cabbie in san francisco scars and all this zine would be great for anyone interested in the gig economy the darker side of san francisco and cab driving please note this is a companion version not the original book sample book insights 1 being an uber driver isn t as easy as it seems it takes a lot of hard work and skills to be an uber driver and only a few make it past the difficulties 2 as a rideshare driver you re a 1099 independent contractor which means you ll be responsible for all your expenses and file a schedule c at tax time however this shouldn t scare you since i ll help you stay ahead of the game when it comes to
Taxes and reporting 3 Rideshare drivers put a lot of miles on their cars a full time driver can easily do a thousand miles a week or more and if you subtract the cost of gas from your earnings you’ll see that your net earnings can be significantly lower than the 459.18 shown in the table. The ultimate flexibility Uber allows you to make money on a whim however most people don’t need this flexibility you’ll want to work enough to get in a rhythm and start earning decent money. Las Vegas is a city where you can meet all walks of life get drunk party hook up with strangers get married on a whim meet strippers see prostitutes gamble your life away watch incredible shows or have a nice relaxing time in one of the many fancy casinos. Step into the world of an Uber driver’s car as he tells you about his adventures driving in the fabulous city of Las Vegas. Dr. Raymond Nadolny takes the ride of his life when he decides to become a driver for Uber and Lyft. What does a driver make is it dangerous? Dr. Nadolny finds the answers to these questions and more when to his amazement he falls in love with the world of ridesharing. Even when the chips are stacked against the drivers Dr. Nadolny cannot help his growing fascination with his many passengers, his many trips and his glimpses into the rich and beautiful pageantry of the Pacific Northwest. Something remarkable emerged as a result of the great recession of the early twenty-first century a sharing economy among the loss of jobs and mortgages and uncertainty about the future people got creative with the way they earned and spent their money. Democratic platforms like Uber and Airbnb have skyrocketed in popularity prompting tighter government regulations but are they the answer to an economy increasingly controlled by giant corporations or are they just a different way for people to profit from and exploit struggling workers? Learn more from viewpoints written by today’s experts. Are you ready to stop living paycheck to paycheck do you want to own your time? Rideshare companies like Uber and Lyft offer a new world of opportunities.

are you looking to be an uber driver or a lyft driver this is the book for you start
driving today i wrote this book to help people understand the ins and outs of being
an uber driver or a lyft driver and how to do it easily with no stress and make lots
money whether you want to become an uber driver or a lyft driver this is the book
for you written by someone who drove seven days a week ten to twelve hour days
and had experiences with a wide variety of people and situations not only was the
author a serious driver for uber as well as lyft but he also had more than eight
years experience in driving limousines for three different companies in los angeles
as you well know being a limousine driver is a huge responsibility and one needs
to be on top of your game especially when you re driving ten to twelve people in
the back of a long stretch although this book won t cover driving limousines i only
want to share with you the needed information so you can comfortable start
driving for uber and lyft i have enclosed links as well where you can sign up easily
and get going i have helped many people start their careers as an uber and a lyft
driver by showing them the easiest way to get going as well as some tips be
professional but don t forget to also have fun and drive safely at the same time
after all if you re not going to have fun in anything you do you might as well do
something else uber and lyft are an excellent way to start making money
immediately without any stress of going to an office and having to work for a boss
if you have questions like how much money do uber drivers make or what are
uber requirements or how do i complete a lyft driver application or any other questions you might have this is the book for you inside this book is valuable information directly from a driver who drove for more than five months and drove hard in the wind in the sun and in massive rainstorms in one of the biggest cities in america los angeles thank you for your interest in becoming an uber or a lyft driver i would suggest signing up for both companies but driving only for one company as starters then maybe later try driving for the other company both companies have their good and their not so good but from my experience it was mostly good here are driving jobs near you learn the uber car requirements and sign up also download lyft driver app and uber driver app how to be an uber driver or a lyft driver from an experienced driver rideshare driving is a great new way to make extra money whether you are thinking about rideshare driving or are a veteran this book walks you through simple strategies to help you make more money raise your ratings pay less taxes all by driving smarter i show you how just changing your focus to winning will help you win more often i bring my experience as a computer game developer to show you how listing your goals as a rideshare driver will help you max out at being a rideshare driver it is not working harder it is working smarter i used these same techniques to double my income driving the same number of hours in a few months small changes make a huge difference using things mentioned in the book i was able to rebuild my plummeting rating from a 4.63 to a 4.94 in a few weeks on lyft and maintain a 5.0 star rating on uber without giving away candy or gum there is advice about what to consider when getting a good car what you need to know about insurance items you should carry with you in your car why chasing the surge or the pink is a mistake all things you should know so you drive smarter it has tools and checklists so you can get more organized it has advice on whether you should drive for uber or lyft
it helps you put the independent in independent contractor from sign up to expert
if there is something you don’t know about rideshare driving it’s likely in there this
is the rideshare driver’s manual the following is an account of my continued life
as an Uber and Lyft driver in the Twin Cities metro area starting December of 2015
and stretching all the way through 2018. Rideshare services vary considerably from
market to market and at no point throughout this book did my market offer the
pool service. Finally, it should be noted this book is a sequel to Ubered My Life as a
rideshare driver. If you have not read my first installment, I would strongly urge you
to stop right here and read that first. When you’re a driver for a ride-sharing
company such as Uber, Lyft or another car-sharing service, the most important thing
to understand about your taxes is that you are probably not an employee of a ride
sharing company. Drivers for these companies are usually independent contractors
a fact that has tax implications both at filing time and year round. This book will
Teach you the fundamentals of becoming a business owner and includes helpful
glossary of common tax terms, so you understand what you read correct facts
cited by real IRS code instructions and resources breakdown of different types of
deductions to maximize your refund, audit defense tips to make your return harder
to crack, tax timeline this year 2016 to keep track of the seemingly endless forms
to file and much more. Advice for users of Uber, Lyft and Airbnb from set up
instructions as user driver and or host and what to do when all you can expect is
the unexpected information given from a user driver host with years of experience
with the sharing economy. Media coverage of ridesourcing services such as Uber
and Lyft has described a rivalry between new technology and the established taxi
industry. Individual users and non-users of ridesourcing, however, may have more
nuanced perspectives, but policymakers have little guidance on how to best
represent these interests. This thesis uses a standardized questionnaire distributed

across the united states by an online survey company to understand individual attitudes toward uber lyft and ridesourcing technology as a whole it asks respondents if they identify as users or non users of ridesourcing why or why not how they rank uber and lyft among their other travel modes their attitudes toward the companies and toward the technology in general on a likert scale of 1 very negative to 5 very positive and their opinions on how their cities should respond among other questions 394 completed questionnaires from the most populous 15 metropolitan statistical areas in the u s reveal individuals use of and attitude toward ridesourcing technology along with variations across demographic groups cities and regions and primary travel mode the survey returned a response rate of 27 and the spatial distribution of responses was roughly proportional to the population of each metropolitan area the findings indicate that about 70 of respondents use some form of ridesourcing mostly for special purpose trips such as avoiding driving while intoxicated and getting to and from the airport the vocal minority who don t use uber or lyft for ethical reasons represent only a small subset of the sample about 6 but 1 in 5 respondents said the companies decision to treat drivers as independent contractors rather than employees made them want to use the services less there are relationships between transportation characteristics e g usage of uber and lyft needing to travel for work and having access to a car and user identification and attitude but demographics are the best predictor of user identification which in turn predicts attitude which predicts policy implications the study suggests potential for policymakers to leverage constituent perspectives to change aspects of ridesourcing that have low public approval on the road with strangers stories safety tax and earning tips from an uber and lyft driver in nashville tennessee is an engaging memoir about an uber and lyft driver s experience in nashville middle tennessee jorge is a business intelligence analyst
developer and currently pursuing a PhD degree in public policy and administration
before enrolling in the doctoral program Jorge drove for Uber and Lyft on weekends.
Jorge has completed 2,727 Uber trips with 1,500 stars and 734 Lyft lifetime rides.
In this book, you will read about intriguing riders' stories shared with Jorge and
Nashville's rich history and culture, including the music industry, food, entertainment,
business, hospitality, and much more. Uber and Lyft drivers and riders will learn safety
tips, Uber and Lyft driver tax filing tips, etiquette, and driver and customer service tips to
maximize earnings on the road with strangers. It is a genre-bending memoir with
some vital etiquette pointers that touch on the politics of gender, race, class,
economics, spirituality, and just human issues. Without being too heavy-handed, it is
a great social human document and it rings true. Teresa Fernandez, PhD. It is a must
read book for anyone with or without Uber and Lyft rideshare services experience.
I drive for Uber and Lyft, and I'm an alcoholic. In 2018 and 2019, I've given over 4,000
rides and driven over 65,000 miles on average. I drive rideshare six days a week
and I drink alcohol nearly every day. I drink before, during, and after giving rides. I've
never had a DUI and I've never been arrested. I've never been to Alcoholics
Anonymous, a treatment center, rehab, or meetings of any kind. Meetings are for
quitters and I'm not a quitter. I'm a daily drinker and I love drinking. The first and
foremost reason for me writing this book is because I want to bring awareness
that there are people with drug, alcohol, and mental illness problems flying under
the radar and driving for rideshare companies. Alcohol dependency has been
around for centuries and has affected many more people than the opioid epidemic
ever will. According to a recent study, one in eight American adults or 12.7% of the
US population is an alcoholic, while one in twenty American adults or 5% of the US
population is addicted to opioids. This book gives you all the essential knowledge
for such a popular income stream as rideshare driving, so called Ubering.

ok i just totally ignored my crying kid because i was so engrossed in your stories
thanks for sharing seriously not only do i love your uber stories but i admire the
intricate details you remember to post i wish i could say my job was as interesting
as yours this book is written by a rideshare driver from the tampa bay area in
florida it is a shared journal between the author and reader each page has a short
story at the top about one of the author s driving experiences the rest of the page
is left blank for the reader to free write any thoughts that come to mind live
vicariously through the author s tales step inside a strip club with passengers
clean some vomit and urine up and then venture on to the next rider laugh
hysterically after almost veering off the road invite a pit bull into your backseat etc
the experiences and conversations documented by this rideshare driver provide
page after page of entertainment the material is appropriate for ages 18 and up
this journal makes a great gift it can be given as a birthday present christmas gift
new year s gift or just a treat for yourself sample story i pick up a group of three
who want to go to jackson s bistro in tampa the guy in the backseat tells me he
has been growing out his beard because ever since he was a child he has wanted to play Jesus in his church’s play and he really hopes to get the part this year. He says he gets high almost every day but the day he plays Jesus he isn’t going to do any drugs. In May 2016, Uber and Lyft suspended services following the defeat of Proposition 1 in Austin, TX. In May 2017, they relaunched service after Proposition 1 was overridden. This paper describes a pilot study aimed at predicting whether those who are using services from other transportation network companies (TNCs) will switch their choice to either Uber or Lyft at the time of writing this article. Uber and Lyft are trying to increase their market share using an aggressive pricing strategy. Thus, a survey at this stage will not reflect people’s stable mode choice. Instead, we use survey data collected between November 2016 and December 2016 when Uber and Lyft’s service were still suspended. That survey was primarily designed to understand the impact of service suspension on travel behavior. However, it included several relevant questions asking about users’ trip costs before and after the suspension, whether they were satisfied with the current TNC service, and whether they were inconvenienced by the lack of Uber or Lyft. Inferring from these surrogate responses, we are able to make reasonable assumptions about who will switch back to Uber or Lyft and who will not once they resume service. We hypothesize that people will not switch unless a given trip’s cost saving is beyond a positive threshold due to boundedly rational behavior. Based on this hypothesis, we use probit regression to estimate a parameter describing the degree to which people are willing to switch, termed indifference band among others. The study revealed that the cohort of younger riders, people who experience higher trip cost saving, or individuals who are extremely inconvenienced by the service suspension or those who use TNC for social purposes have lower indifference bands and are thus more likely to switch to Uber or Lyft. The results of
this study will assist policy makers in understanding the impact of policy and regulations on people’s mode choice behavior

Uber Diva 2017-09-18

she’s sitting on a secret with thousands Uber and Lyft rides under her belt. Uber Diva offers a bird’s eye view of what it’s really like to work as a rideshare driver. She also instructs passengers on how to avoid getting spanked with a 1-star rating. Meet the freaks, learn the equipment, and see how this Diva survived when a drunk driver t-boned her car. Based on true rideshare experiences in the San Francisco Bay Area, Uber Diva includes educational chapters answering these burning questions: What kind of insurance is needed as an Uber driver? What equipment will be necessary before drivers start driving? How is Uber different than driving for Lyft? What’s the etiquette for passengers? What about driver and passenger safety? This book is the author’s personal opinion and does not necessarily reflect the views of the companies mentioned in the book, including Uber, Lyft, Google, Apple, or Twitter.

Behind the Wheel 3: From Uber/Lyft to Taxi: The Unexpurgated I Drive S.F. 2019-03-22

the third installment in the behind the wheel series is a ribald journey into the reality of driving a bonafide san francisco taxicab gritty and raw the view from a cab is not for the faint hearted from facilitating drug deals to abetting prostitution to just getting people home safely from the clubs the job of a night cabbie isn t over until the sun comes up

How Uber and Lyft Drivers Make More Money 2018-12-30

this book is meant for all of the uber and lyft or any other rideshare drivers in the world about 5 million of us who know that they must replace this income and soon because uber and lyft are both going to begin trading their stock on the major exchanges this year called going public and therefore will have to show continually growing profits to the investor community and therefore cannot pay their drivers as generously as before drivers will also have to replace income lost
because the entire fleet of rideshare vehicles will be replaced by driver less or autonomous vehicles in two to three years from the publication date of this book. Uber and Lyft and all other rideshare jobs are going to vanish in less than three years tops and in the meantime driver income will be dwindling in order to show constantly increasing profits to Wall Street. Visit howuberandlyftdriversmakemoremoney.com to receive updated information on this important topic especially if you are currently an Uber or Lyft driver. One of the most disruptive of all inventions in this century has been the rideshare and other mobility apps. The projections for this industry is that it will top over 1.5 trillion dollars by 2030 and become a major portion of the world economy. Don't get left behind in this giant tsunami wave of economic and job development. What's more important is how fast the new gig economy is changing so many lives and even the fabric of the American markets. Don't get left behind, we may be entering one of the most challenging epochs in history as we slowly cause more and more climate change and governments are helpless to do anything about it. This means the migration of billions of people all over the planet and this is why the estimates of the mobility app industry is probably extremely understated. It's this author's opinion that everything your job, your retirement, your health care, your jobs, your food, and your safety, even your home will become a mobile app commodity.

There are currently around 10 million Uber and Lyft drivers around the world and very quickly they will be replaced by robots if you are an Uber and Lyft driver you need to take action now at howuberandlyftdriversmakemoremoney.com

Behind the Wheel 2013

Behind the wheel from Uber Lyft to Taxi by Kelly Dessaint is a personal narrative
zine about life as a taxi driver in San Francisco the author is unapologetically against ride-sharing services Uber and Lyft and the unique perspective of having worked for them before becoming a taxi driver gives new depth to the divide between the two. The stories are gritty and unvarnished and attempt to show what life is really like as a cabbie in San Francisco—scars and all. This zine would be great for anyone interested in the gig economy, the darker side of San Francisco, and cab driving.

Please note this is a companion version, not the original book. Sample book insights:

1. Being an Uber driver isn't as easy as it seems. It takes a lot of hard work and skills to be an Uber driver, and only a few make it past the difficulties.

2. As a rideshare driver, you're a 1099 independent contractor, which means you'll be responsible for all your expenses and file a Schedule C at tax time. However, this shouldn't scare you since I'll help you stay ahead of the game when it comes to taxes and reporting.

3. Rideshare drivers put a lot of miles on their cars. A full-time driver can easily do a thousand miles a week or more, and if you subtract the cost of gas from your earnings, you'll see that your net earnings can be significantly lower than the 459.18 shown in the table.

4. The ultimate flexibility Uber allows you to make money on a whim, however most people don't need this flexibility. You'll want to work enough to get in a rhythm and start earning decent money.

Dr. Raymond Nadolny takes the ride of his life when he decides to become a driver for Uber and Lyft. What does a driver make is it dangerous? Dr. Nadolny finds the answers to these questions and more when to his amazement he falls in love with the world of ridesharing even when the chips are stacked against the drivers. Dr. Nadolny cannot help his growing fascination with his many passengers; his many trips and his glimpses into the rich and beautiful pageantry of the Pacific Northwest.

Driving the Uberverses 2018-04-12

Something remarkable emerged as a result of the Great Recession of the early twenty-first century—a sharing economy among the loss of jobs and mortgages and uncertainty about the future. People got creative with the way they earned and spent their money. Democratic platforms like Uber and Airbnb have skyrocketed in popularity prompting tighter government regulations but are they the answer to an economy increasingly controlled by giant corporations or are they just a different

Are you looking to be an Uber driver or a Lyft driver? This is the book for you start
driving today. I wrote this book to help people understand the ins and outs of being
an Uber driver or a Lyft driver and how to do it easily with no stress and make lots
money. Whether you want to become an Uber driver or a Lyft driver, this is the book
for you. Written by someone who drove seven days a week, ten to twelve hour days
and had experiences with a wide variety of people and situations. Not only was the
author a serious driver for Uber as well as Lyft, but he also had more than eight
years experience in driving limousines for three different companies in Los Angeles
as you well know, being a limousine driver is a huge responsibility and one needs
to be on top of your game, especially when you’re driving ten to twelve people in
the back of a long stretch. Although this book won’t cover driving limousines, I only
want to share with you the needed information so you can comfortably start
driving for Uber and Lyft. I have enclosed links as well where you can sign up easily
and get going. I have helped many people start their careers as an Uber and a Lyft

professional but don’t forget to also have fun and drive safely at the same time. After all, if you’re not going to have fun in anything you do, you might as well do something else. Uber and Lyft are an excellent way to start making money immediately without any stress of going to an office and having to work for a boss. If you have questions like how much money do Uber drivers make, or what are Uber requirements, or how do I complete a Lyft driver application, or any other questions you might have, this is the book for you. Inside this book is valuable information directly from a driver who drove for more than five months and drove hard in the wind, in the sun and in massive rainstorms in one of the biggest cities in America, Los Angeles. Thank you for your interest in becoming an Uber or a Lyft driver. I would suggest signing up for both companies but driving only for one company as starters then maybe later try driving for the other company. Both companies have their good and their not so good but from my experience it was mostly good. Here are driving jobs near you. media coverage of ridesourcing services such as uber and lyft has described a rivalry between new technology and the established taxi industry individual users and non users of ridesourcing however may have more nuanced perspectives but policymakers have little guidance on how to best represent these interests this thesis uses a standardized questionnaire distributed across the united states by an online survey company to understand individual attitudes toward uber lyft and
ridesourcing technology as a whole it asks respondents if they identify as users or non users of ridesourcing why or why not how they rank uber and lyft among their other travel modes their attitudes toward the companies and toward the technology in general on a likert scale of 1 very negative to 5 very positive and their opinions on how their cities should respond among other questions 394 completed questionnaires from the most populous 15 metropolitan statistical areas in the u s reveal individuals use of and attitude toward ridesourcing technology along with variations across demographic groups cities and regions and primary travel mode the survey returned a response rate of 27 and the spatial distribution of responses was roughly proportional to the population of each metropolitan area the findings indicate that about 70 of respondents use some form of ridesourcing mostly for special purpose trips such as avoiding driving while intoxicated and getting to and from the airport the vocal minority who don t use uber or lyft for ethical reasons represent only a small subset of the sample about 6 but 1 in 5 respondents said the companies decision to treat drivers as independent contractors rather than employees made them want to use the services less there are relationships between transportation characteristics e g usage of uber and lyft needing to travel for work and having access to a car and user identification and attitude but demographics are the best predictor of user identification which in turn predicts attitude which predicts policy implications the study suggests potential for policymakers to leverage constituent perspectives to change aspects of ridesourcing that have low public approval

i drive for uber and lyft and i m an alcoholic in 2018 and 2019 i ve given over 4000 rides and driven over 65 000 miles on average i drive rideshare six days a week and i drink alcohol nearly every day i drink before during and after giving
rides i ve never had a dui and i ve never been arrested i ve never been to
alcoholics anonymous a treatment center rehab or meetings of any kind meetings
are for quitters and i m not a quitter i m a daily drinker and i love drinking the first
and foremost reason for me writing this book is because i want to bring
awareness that there are people with drug alcohol and mental illness problems
flying under the radar and driving for rideshare companies alcohol dependency
has been around for centuries and has affected many more people than the opioid
epidemic ever will according to a recent study one in eight american adults or 12
7 of the u s population is an alcoholic while one in twenty american adults or 5 of

in may 2016 uber and lyft suspended services following the defeat of proposition 1 in austin tx in may 2017 they relaunched service after proposition 1 was overridden this paper describes a pilot study aimed at predicting whether those who are using services from other transportation network companies tncs will switch their choice to either uber or lyft at the time of writing this article uber and lyft are trying to increase their market share using an aggressive pricing strategy thus a survey at this stage will not reflect people s stable mode choice instead we use survey data collected between november 2016 and december 2016 when uber and lyft s service were still suspended that survey was primarily designed to understand the impact of service suspension on travel behavior however it included several relevant questions asking about users trip costs before and after the suspension whether they were satisfied with the current tnc service and whether they were inconvenienced by the lack of uber or lyft inferring from these surrogate responses we are able to make reasonable assumptions about who will switch back to uber or lyft and who will not once they resume service we hypothesize that people will not switch unless a given trip s cost saving is beyond

a positive threshold due to boundedly rational behavior based on this hypothesis we use probit regression to estimate a parameter describing the degree to which people are willing to switch termed indifference band among others the study revealed that the cohort of younger riders people who experience higher trip cost saving or individuals who are extremely inconvenienced by the service suspension or those who use tnc for social purposes have lower indifference bands and are thus more likely to switch to uber or lyft the results of this study will assist policy makers in understanding the impact of policy and regulations on people’s mode choice behavior
