Policymakers and program managers are continually seeking ways to improve accountability in achieving an entity's mission. A key factor in improving accountability in achieving an entity's mission is to implement an effective internal control system. An effective internal control system helps an entity adapt to shifting environments, evolving demands, changing risks, and new priorities as programs change and entities strive to improve operational processes and implement new technology. Management continually evaluates its internal control system so that it is effective and updated when necessary. Section 3512(c) and (d) of Title 31 of the United States Code, commonly known as the Federal Managers Financial Integrity Act (FMFIA), requires the Comptroller General to issue standards for internal control in the federal government. In this book, I will show you how you can have an amazing life if you do things just a little differently. I am going to show you how to raise your credit score extremely quickly and easily and how to leverage credit to build financial wealth for you and your family. Your amazing life awaits, and I am happy to be your guide. Josette A. Hill migrated to America just a few short years ago and has built a financial empire very quickly. She wants to show others how very possible it is to build wealth starting from scratch and using none of your own money. Josette is the CEO of JAH Financial Services & Real Estate Inc. She brings 15 years of financial services experience to the marketplace. She is a financial advisor, small business coach, and has a nonprofit.
