**Drawing: Beginning Still Life 2016-03-14**

how to draw in a nutshell by popular pencil artist jasmina susak this book is about drawing for beginners and it is helpful to those interested in developing basic knowledge and skills it is concise clear no wasted words very easy to understand and well written in a friendly way filled with encouragement and complemented with a lot of illustrations this book features verbal and visual explanations which makes the learning much easier and successful the author contends that drawing and shading are skills that anyone can develop through patient practice and a lot of time spent on drawing even with no special talent for it why should you choose this book over the hundred others of the same topic because the author will teach you to draw realistic lifelike drawings to give a life to your drawing instead of making flat lifeless drawings because the author is a self taught artist and can tell you about her own experience and what she has gone through instead of repeating the curriculum that she would have learned in school if she had attended any art school because the author won't tell you add some shading that you can read in plenty of how to draw books by other authors but she will explain to you in detail how to do it and how she does it with nothing left to be asked because through this book you won't learn to draw a cube or cylinder that no one needs but the things that you will want to draw for yourself or for the people around you animals human faces everyday objects 3d drawings and more because the author will explain to you what she has realized through the years spent on drawing so that you don't have to think about how to do something but immediately start doing it...
you time on study and searching for the answers on the internet because the author will encourage you to keep on drawing and inspire you so that you will never want to stop doing it in this book you will find a lot of tips and tricks to kick start your artwork and help you to achieve stunning results enjoy learning

**Foundations of Drawing 2017-06-13**

**Drawing for Beginners 2018-08-27**

utilizing as few words as possible but presenting a tremendous variety and volume of illustrations this all in one guide details the fundamentals of drawing in its various phases and fields in the opening pages the author points out the first step on the road to creative achievement artists must learn how to see people and things in terms of pictures then master the techniques needed to express themselves on paper geared to newcomers and yet still beneficial for more experienced artists moranz’s illuminating advice covers everything from nude and draped figures to the art of portraits and sketching animals he covers the effective use of various mediums including pencil charcoal pen and wash plus he offers helpful tips on developing a sixth sense about perspective the basics of composition reflecting light and shadow and more there’s even a chapter on taking drawing one step further from a pleasurable hobby to a successful commercial venture

**The Absolute Beginner's Big Book of Drawing and Painting 2014-08-12**

many of us want to learn how to draw but as artist anthony ryder explains it’s much more important to learn what to draw in other words to observe and draw what we actually see rather than what we think we see when it comes to drawing the human figure this means letting go of learned ideas and expectation of what the figure should look like it means carefully observing the interplay of form and light shape and line that combine to create the actual appearance of human form in the artist’s complete guide to figure drawing amateur and experienced artists alike are guided toward this new way of seeing and drawing the figure with a three step drawing method the book’s progressive course starts with the block in an exercise in seeing and establishing the figure’s shape it then build to the contour a refined line drawing that represents the figure’s silhouette the last step is tonal work on the inside of the contour when light and shadow are shaped to create the illusion of form separate chapters explore topics critical to the method gesture which expresses a sense of living energy to the figure light which largely determines how we see the model and form which conveys the figure’s volume and mass examples step by steps and special tips offer helpful hints and practical guidance throughout lavishly illustrated with the author’s stunning artwork the artist’s complete guide to figure drawing combines solid instruction with thoughtful meditations on the art of drawing to both instruct and inspire artists of all levels

**Drawing and Illustration 2008-09-25**
